hamm

Ham:m is our dream that has come true.

We started with the idea of creating objects for the interiors and buildings we design. All of Ham:m`s products are hand-crafted and made of natural, fine quality materials. Today, Ham:m is a brand that is growing fast with the interest and love of our clients.

We combine traditional production style with industrial techniques to give craftsmanship the value it deserves.

We work with our designers in a collective spirit through the entire process, from the first idea to production. We are always open to new designers looking for a space to create.

We intend to focus on the idea of timelessness. We design the antiques of the future and fight against fast consumption habits.

We make collections that age beautifully over time due to material selections and will appeal to the next generations.

Within our Ham:m Plus project, we connect with customers in person, create unique interiors with well-considered details. Ham:m Plus is carried out as a complimentary service.

Ham:m, gerçeęe dönüşen bir ideal bizim için.

Tasarladığımız mekan ve yapılar için obje üretme fikriyle başladık, doğal ve kaliteli malzemeler kullanarak el işçilięi ile üretiyoruz. Sonucunda ise kullanıcılarımızdan gelen ilgi ve sevgiyle büyüyoruz.

Geleneksel üretim biçimlerini endüstriyel tekniklerle harmanlayarak unutulmaya yüz tutmuş bir değer olan zanaatkarlığa hak ettiği saygıyı geri kazandırmayı amaçlıyoruz.

Tasarımcılarımızla, fikirden üretime her aşamada kolektif bir ruhla çalışıyor, üretim için alan arayan tasarımcılara da kucak açıyoruz.

Zamansızlığı çok önemsiyoruz. Günümüzün "kullan-at" tüketim alışkanlıkları ile geleceğin antikalarını tasarlayarak savaşıyoruz.

Malzeme seçimi sayesinde eskidikçe güzelleşen, bir sonraki jenerasyonlara aktarılabilir mobilyalar tasarlıyoruz.

Kullanıcı ile birebir iletişim kuran projemiz Ham:m Plus aracılığıyla, tüm ayrıntılarıyla düşünülmüş özgün mekanlar yaratıyor ve bunu ücretsiz olarak yapıyoruz.

“El yapımıdır.”

“All is hand-made.”

hammplus

nasıl işler? how it works?

Ham:m ailesinin kullanıcı ile birebir iletişim kuran projesi Ham:m Plus, incelikli olarak düşünülmüş özgün mekanlar yaratıyor ve bunu ücretsiz olarak yapıyor.

Proje aşamalar halinde gerçekleşiyor. Öncelikle, mimarlarımızla birlikte tasarlanmasını arzu ettiğiniz mekanınızı ziyaret ederek profesyonel analizler yapıyor, fotoğraflar çekiyoruz. Bu mekan, tercihinize göre eviniz ya da çalışma alanınız olabilir. Daha sonra, sizin de istek ve ihtiyaçlarınızla örtüşecek bütünlüklü bir tasarım hazırlıyoruz. Tasarıma dair önerilerimiz, mobilya seçiminden aksesuar kullanımına, duvar renginden ürün yerleşimine kadar her türlü detayı kapsıyor. Projenin bitmiş halini gözünüzde canlandırmak amacıyla kapsamlı bir anlatım ile sunumumuzu tamamlıyoruz. Son adımda ise, onayınızla birlikte fikirlerimizi uygulamaya başlıyoruz.

Ham:m Plus hizmeti, mekanlarında Ham:m dünyasının estetik, güçlü ve kişiye özel tasarım anlayışını hissetmek isteyen tüm kullanıcılarımızın kullanımına açık olup, her aşamasında sizinle işbirliği halinde gerçekleşiyor.

Ham:m Plus is a project by Ham:m family that connects with the customers in person and creates unique interiors with well-considered details. Ham:m Plus is carried out as a complimentary service.

The project has multiple stages. Our architects visit the site that you would like to be designed, make professional analysis and take photos. This site can be your house or your working space. Afterwards, we make an extensive design plan that integrates your requests and needs. Our design plan includes all details from the selection of furniture and accessories to the color of the walls. Next, for a better visualization of the project, a comprehensive presentation is made. Lastly, we start implementing the design plan upon your approval.

Ham:m Plus service is for everybody, who is willing to share the aesthetic, powerful and customized vision of Ham:m, and each step is taken in cooperation with you.

Mimarlarımızla
evinize geliyoruz.

Birlikte ihtiyaçlarınızı
belirliyoruz.

Size özel bir
proje hazırlıyoruz.

Onaylarsanız
uyguluyoruz.

Hamm Evi
Hamm House

Hamm evi temel olarak hızlı üretimi düşük maliyet ve kalite ortamında birleştirilerek tüketiciye farklı bir "mimari" sunmayı amaçlıyor. Konutu daha erişilebilir hale getirmek, daha geniş bir kitleyle ürünü buluşturmak ve farklı mekansal isteklere yanıt verebilmek için proje birçok farklı plan tipolojisi üzerinden yürütülmekte.

The Hamm House simply aims at providing the customer with a different kind of 'architecture' by merging quick production technologies and low-cost facilities with high quality materials and spaces. As a project 'The Hamm House' offers diverse ground plan typologies. Consequently, the project can be easily adapted to distinct spacial conditions. Thanks to this the 'Hamm House' is made accessible to a wider the range of audience.

Yaşama alanı yerleşimi bütün mekanları birbirine bağlayacak şekilde düşünüldü: koltukta otururken mutfaktakilerle sohbet edebilir ve aynı zamanda manzaranın tadını çıkarabilirsiniz.

Yaşama alanında kullanılan "Seyrek" geniş ve zengin bir kütüphane ve raf alanı yaratıyor.

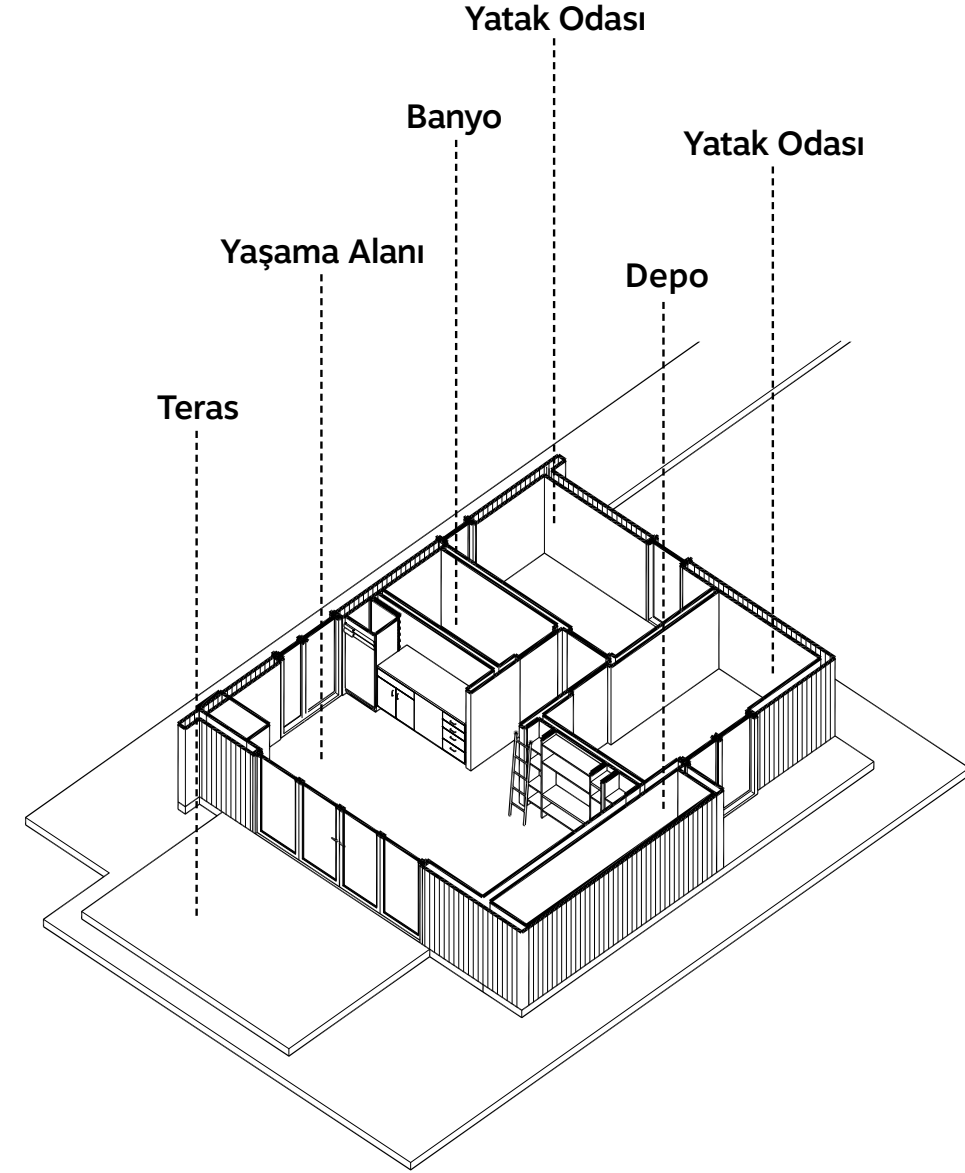

Kütüphaneye erişimi kolaylaştıran merdiveniniz aynı zamanda çatı aralığında bulunan odaya ve depo alanlarına geçişi sağlıyor.

The living space was designed in a way that it connects and combines different kinds of spaces: You can sit on your sofa, enjoy the view and at the same time chat with the ones who are cooking tea on the cookstove.

The bookcase 'Seyrek' used in the living space allows you to feature a rich and extensive library.

The staircase facilitating access to the library connects at the same time the ground floor with the attic.

Hamm Evi'nin iç mekan yerleşimi oldukça kompakt bir plan şeması üzerinden işliyor: Girişte yer alan yaşama alanı ve buraya bağlanan odalar ve banyo minimum sirkülasyon alanı gerektirecek şekilde planlandı.

Dış mekanda kullanılacak eşyaların muhafaza edilebilmesi için yapının uzantısı olarak yan tarafında bir depo alanı yer almakta.

The disposition of the rooms is rooted in a compact plan scheme: The living space located at the entrance opens up to the rooms and the bathroom. Such an organization of the spaces allows a minimum of the circulation area.

A storage area, an extension of the structure, is located on the side along the facade and facilitates the preservation of the articles to be used outdoors.

Etkileyici ve kesintisiz bir çatıkurgusunun altında yer alan yaşama alanı terasa açılan geniş cam kapılar sayesinde yüksek seviyede gün ışığıyla aydınlanır. Bu kapılar iç ve dış mekan arasındaki geçişi sağlarken aynı zamanda da evin çevresindeki doğal yaşam sahasını adeta çerçeveler ve yaşam alanını mutluluk veren bir manzarayla bütünleştirirler.

The living room which lies under an impressive and uninterrupted roof structure gets lightened by the light coming from the floor-to-ceiling glass doors which connect the area to the terrace. These doors frames the marvellous natural texture that surrounds the house, and integrates the living area with a scenery that gives happiness and peace.
