Bambařka yařatan, yařayan tasarımlar

“Günümüzün kullan at tüketim alışkanlıklarına karşı geleceğın antikalarını tasarlayarak mücadele ediyoruz.”

We design antiques of the future in order to compete against rapid consumption habits.

Ham:m is our dream that has come true.

We started with the idea of creating objects for the interiors and buildings we design. All of Ham:m`s products are hand-crafted and made of natural, fine quality materials. Today, Ham:m is a brand that is growing fast with the interest and love of our clients.

We combine traditional production style with industrial techniques to give craftsmanship the value it deserves.

We work with our designers in a collective spirit through the entire process, from the first idea to production. We are always open to new designers looking for a space to create.

We intend to focus on the idea of timelessness. We design the antiques of the future and fight against fast consumption habits.

We make collections that age beautifully over time due to material selections and will appeal to the next generations.

Within our Ham:m Plus project, we connect with customers in person, create unique interiors with well-considered details. Ham:m Plus is carried out as a complimentary service.

Ham:m, gerçeęe dönüşen bir ideal bizim için.

Tasarladığımız mekan ve yapılar için obje üretme fikriyle başladık, doğal ve kaliteli malzemeler kullanarak el işçilięi ile üretiyoruz. Sonucunda ise kullanıcılarımızdan gelen ilgi ve sevgiyle büyüyoruz.

Geleneksel üretim biçimlerini endüstriyel tekniklerle harmanlayarak unutulmaya yüz tutmuş bir değer olan zanaatkarlığa hak ettiği saygıyı geri kazandırmayı amaçlıyoruz.

Tasarımcılarımızla, fikirden üretime her aşamada kolektif bir ruhla çalışıyor, üretim için alan arayan tasarımcılara da kucak açıyoruz.

Zamansızlığı çok önemsiyoruz. Günümüzün "kullan-at" tüketim alışkanlıkları ile geleceğin antikalarını tasarlayarak savaşıyoruz.

Malzeme seçimi sayesinde eskidikçe güzelleşen, bir sonraki jenerasyonlara aktarılabilecek mobilyalar tasarlıyoruz.

Kullanıcı ile birebir iletişim kuran projemiz Ham:m Plus aracılığıyla, tüm ayrıntılarıyla düşünülmüş özgün mekanlar yaratıyor ve bunu ücretsiz olarak yapıyoruz.

nasıl çalışır?  
how it works?

## Proje aşamalar halinde gerçekleşiyor:

→ Öncelikle, mimarlarımızla birlikte tasarlanmasını arzu ettiğiniz mekanınızı ziyaret ederek profesyonel analizler yapıyor, fotoğraflar çekiyoruz. Bu mekan, tercihinize göre eviniz ya da çalışma alanınız olabilir.

→ Daha sonra, sizin de istek ve ihtiyaçlarınızla örtüşecek bütünlüklü bir tasarım hazırlıyoruz. Tasarıma dair önerilerimiz, mobilya seçiminden aksesuar kullanımına, duvar renginden ürün yerleşimine kadar her türlü detayı kapsıyor. Projenin bitmiş halini gözünüzde canlandırmak amacıyla kapsamlı bir anlatım ile sunumumuzu tamamlıyoruz.

→ Son adımda ise, onayınızla birlikte fikirlerimizi uygulamaya başlıyoruz.

## The project has multiple stages:

→ Our architects visit the site that you would like to be designed, make professional analysis and take photos. This site can be your house or your working space.

→ Afterwards, we make an extensive design plan that integrates your requests and needs. Our design plan includes all details from the selection of furniture and accessories to the color of the walls. Next, for a better visualization of the project, a comprehensive presentation is made.

→ Lastly, we start implementing the design plan upon your approval.

## 1. Tanışma & Anlama 1. Meeting & Understanding

İlk adımda sizlerle bir araya geliyor, ihtiyaçlarınızı ve isteklerinizi sizden dinliyoruz. Sonrasında mimarlarımızla evinize ya da ofisinize konuk oluyor, mekanınızda keşif yapıyoruz. Sizi daha yakından tanıyor ve bütün detaylarıyla beklentilerinizi anlıyoruz.

In the first step we meet with you, we listen to your needs and requests. Afterwards, our architects visit your house or office and explore your place. We fully understand your expectations.

## 2. Tasarlama & Sunma 2. Designing & Presenting

Mimarlarımız mobilya, aydınlatma ve aksesuarlarımızı kullanarak beklentileriniz doğrultusunda size özel mekanlar tasarlıyor. Detaylı bir iç mimari sunumla önerilerimizi sizinle paylaşıyoruz.

Our architects use our furniture, lighting and accessories to design spaces special for you, parallel to your expectations. We share our suggestions with you via a detailed interior presentation.

## 3. Hayata geçirme 3. Making it happen

Birlikte projeye son şeklini veriyoruz. Proje tam olarak içinize sindikten sonra üretime başlıyoruz. Satın aldığınız ürünleri ücretsiz olarak size getiriyor, montajlarını yapıyor ve onayladığınız projeyi mekanınızda hayata geçiriyoruz.

Together we finalize the project. We start the production after you are 100% happy with the project. We bring the products you buy for free, do your montage and implement the project you approved.

(5) 40 x 30 x 240 cm	(5)* 40 x 30 x 220 cm

Farklı derinliklerde modüllerden oluşan Seyrek mekanlara göre özel ebatlarda üretilebilmektedir.

Created with modules with various depths, Seyrek can be adopted to different dimensions.

# Seyrek

Muhammet Taşlı, 2014

Kitaplık olarak tasarlanan Seyrek; bitki, mutfak malzemeleri, aksesuar ve tablo gibi objeleri sergileyen bir raf sistemi gibi de kullanılabilir. Modüler yapısıyla farklı yükseklik, genişlik ve adette üretiliyor, bu sayede kullanım çeşitliliği sunuyor. Masif meşe bloklar bir araya getirilerek kullanılacağı alana uygun üniteler yaratılıyor.

Yapılandırma özelliği sayesinde kapak, çekmece, şaraplık gibi parçalar eklenip, geniş renk seçenekleriyle karakteristik sonuçlar elde ediliyor. Mekana göre özelleştirme imkanına sahip tasarım oldukça esnek yapılı olsa da, form ve iskeleti sağlamlığından taviz vermiyor.

Seyrek has been designed as a bookshelf system that can be used also to display objects such as plants, cutlery, accessories and paintings. Modular grid of the furniture offers different height, width, space and quantity options to let the users explore their own composition. Solid oak blocks make up this adaptable units so they can easily fit to the intended areas.

Building options give the opportunity to add features such as covers, drawers, wine containers, and choose from a range of colors to characterize them. Although the customizable design is flexible, the form and structure remains strict and stable.

# Müşterekler

Müşterek olmak demek, birlik olmak, ortaklaşa yapmak demek.

Ham:m, hayata geçirdiği "Müşterek" isimli platform aracılığıyla üretim için alan arayan tasarımcılara kucak açıyor, tasarım ideallerini gerçeğe dönüştürme yolunda kazandığı deneyimleri onlarla paylaşmayı hedefliyor.

Bugün sayısı 20'yi aşan Müşterek'ler, farklı boyutlardaki tasarım atölyelerinden oluşuyor. Ekip olarak ilerlemeyi ve heyecanla üretmeyi amaçlayan bu oluşum, yeni katılımcılara ve yaratıcı işbirliklerine her daim açık.

"Müşterek" means to be united, to make something together.

Müşterek is a platform found by Ham:m that is willing to embrace the designers looking for a space to create and share the experiences gained on the way of turning design ideals into reality.

Müşterek's, which are over than 20 today, are made up of design workshops of different sizes. The organisation aims to make a progress as a team, produce with excitement and is always open for new contributors and creative collaborations.
